Subject: Letter of Appreciation

Dear Raju Sir,

I am writing this letter to express my appreciation for everything I received during this internship. Under your mentorship, I was able to hone my proficiency in programming and my leadership skills with this internship.

Working for over 2000 hours also gave me the opportunity to work with a Macbook and eventually owning one too. As someone who always saw Macbooks as a luxury, this was a fortuity that further gave me a glance into the tech industry.

To this day, I still rely on my macbook for all my coding and also my university work. I am very thankful for this chance and hope to inspire future interns to work just as hard to obtain such an opportunity.

Sincerely,
Chaya G.
